

Church of Christ in Milton  
TextAlertz System  
Instructions

Sunday, December 10, 2017

What is the TextAlertz System?

*The CoC in Milton has adopted a system which allows the church leadership to communicate important information regarding weather and other notices to the membership.*

I would like to receive important CoC in Milton notifications via my phone/electronic device. How do I 'opt in'?

1. Go to your 'Text Message' function on your phone/electronic device.
2. Where it says 'To' put in the following number or Code **55469**
3. The message you will put in or type in as a message is simply  
**CoCMilton**
4. Touch **send**
5. You will receive an immediate message back letting you know you have successfully connected to the Church's TextAlertz System. That is it!  
You have now opted into the church's electronic system.

What if I don't have an electronic device but would like to be notified of important church related weather updates and other church updates?

*One of the deacons will call you and let you know of important weather updates at the number you have listed in the most recent church directory. If you have recently changed your address or number make sure you give this updated information to Wakiesha Charley ASAP.*
