

TextAlertz System

Instructions

What is the TextAlertz System?

The Bedford Street Church of Christ in Abington has adopted a system which allows the church leadership to communicate important information regarding weather and other notices to the membership.

“I would like to receive important **Bedford St CoC** notifications via my phone/electronic device. How do I ‘opt in’?” Use the QR Code below or follow these instructions:

1. Go to your ‘Text Message’ function on your phone/electronic device.
2. Where it says ‘To’ put in the following number **888-541-2638**
3. The text message you will type in/key in is simply **BSCOC**
4. **Send** it
5. You will receive an automated response/message back which says, “Welcome to the Bedford Street Church of Christ. We’ll keep you updated on church information.
6. This is the OPT IN process. Reply **“YES”** to this message.
7. You will receive a ‘Thanks’ message in response.
8. You have successfully connected to the church TextAlertz System. That’s it!

What if I don’t have an electronic device but would like to be notified of important church related weather updates and other church updates?

*One of the **ministry leaders** will call you and let you know of important weather updates at the number you have provided to the church secretary/administrative assistant for directory information.*

Have you changed your mobile number recently? Have you missed recent church TEXTALERTZs? Opt-in again with your new mobile number.
